Dear Friends,

Recently, Rep. Chris Pappas, and Senator Maggie Hassan have taken a shameful stance regarding immigration and have chosen to support bills blocking President Biden's repeal of the draconian Trump era "Title 42". This statute instructs the rounding up and expulsion, without due process, of people crossing the Mexico - U.S. border under the guise of public health.

Expulsions under the provision have steadily increased, reaching over 100,000 people per month, throughout Pres. Biden's term. This decision by President Biden to repeal Title 42 has come in the wake of heavy criticism from human rights and immigrant rights groups, making Pappas and Hassan’s decision to back a move blocking its repeal, all the more shameful.

By co-sponsoring H.R.7458 - Public Health and Border Security Act of 2022, and S.4036 - Public Health and Border Security Act of 2022, Rep. Pappas, and Senator Hassan have chosen to stand with the most xenophobic and white nationalist elements of our political system, and against basic human rights. We need to let them know that we are paying attention, and that this stance flies in the face of our values.

Contact Rep. Pappas to voice your disapproval for his cosponsoring
